IT PROJECTS

Pecunia Bank-A Full Fledge Banking Website

📅 12/2019 - Ongoing

🔗 <https://github.com/pranavsinha17/PecuniaBank-Rest-Services/tree/pranav>

A Full Stack Web Application made from scratch using Angular and Spring Framework. JPA is used for the data access layer and Hibernate is the implementation of it. MySQL is used as a database for this project. This application understands major banking requirements and provides preferred business solutions to it. The development uses Agile methodologies and a TDD approach.

- Used Technologies: Java, Maven, JPA, Hibernate, Oracle SQL, Spring Boot, Angular

Realtime-Corona Stats

📅 03/2020 - 04/2020

🔗 <https://corona-realtym.web.app/>

An Angular 8 web application with PWA(Progressive Web App) support which fetches realtime corona statistics from an API and shows them in the application. It shows total and state-wise data of India with several helpline numbers.

- Used Technologies: Angular, Progressive Web Apps(PWA).

Note Keeper

📅 02/2019 - 12/2019

🔗 <https://github.com/pranavsinha17/NoteKeeper>

NoteKeeper is an Android application/platform for all university and college students to upload and download notes or study material for academic purposes only, ask doubts with other students or faculties of college or universities across the world, sell or buy books or other old materials from each other, help each other in finding lost items of friends like iCards, wallets or anything else, lastly but not least take the exam or small quiz to prepare for placements created by faculties registered on the platform.

- Used Technologies: Android Studio, Java

CORPORATE EXPERIENCE

Java Full Stack Intern

Capgemini

📅 02/2020 - 06/2020 📍 Phagwara

A leading service based MNC headquartered in Paris, France.

- Learn the real-world development with Java language and Angular Framework.
- I have developed a banking application from scratch within allocated time frame.
- Learn the Test Driven Development, Agile Methodologies, team working and error resolving techniques at the time of deployment.
